TO: Property Owners in the Westside Area

RE: Meeting to discuss extension of infrastructure and annexation

Over the last few years the City of Helena has been working with area property owners to bring sewer, water, and other improvements to your neighborhood. Some properties have petitioned for annexation, some have water and/or sewer services and have been wholly surrounded by city properties, and some properties do not have any services but are also wholly surrounded. The City of Helena will continue the dialogue concerning extension of city services to these properties and the proposed annexation.

You're invited to a community meeting to be held at the St. Andrews School Gymnasium on Thursday November 20th from 6:00-8:30 P.M. The purpose of this meeting is for city staff to provide information and answer questions regarding infrastructure extension, such as water and sewer services, tax information, emergency services, transportation, and solid waste services.

Enclosed are a frequently asked questions pamphlet and a map showing the area and the properties to be included in the infrastructure project. Please review the map as a precursor to the discussion of the process. If you have any questions please contact Dustin Ramoie at (406) 447-8492.

Sincerely,

Ron Alles, City Manager
City of Helena
