

- Project:** Downtown ADA Ramp Replacement
- Description:** This project will install or upgrade the ADA ramps in Helena's Business District and along Helena Avenue to bring as many ramps as possible into ADA compliance. Helena's ADA Committee first identified these projects as a priority in 2011. Some of the existing curb ramps are not ADA-accessible, which causes safety and mobility issues throughout the area for all users.
- Estimated Cost:** \$587,384.00
- Status:** Construction is substantially complete. Punch list items and curb painting remain to be completed.
- Update:** Twelve ramps along Last Chance Gulch were constructed this fall. The remaining ramps proposed in the project will be constructed in the spring of 2016.
- Comments, Questions or Concerns:** David Knoepke, P.E.
