

Capital Transit Advisory Council (CTAC)

Request for Membership

The Capital Area Advisory Council (CTAC) would like to invite you to participate in supporting community transportation for all citizens in the Helena area.

The Federal Transit Administration (FTA) and State Department of Transportation require that “Each transportation service area must have a local Transportation Advisory Council (TAC).” The FTA provides clear direction on the role and membership of a community TAC.

Transit services affect the economic viability, job development, health and congestion of our community; for these reason we would like you to consider becoming a member and participating in community transportation development in Helena.

Membership does not require dues or fees.
