To All Applicants,

Re: TSD-26-16: FY2026 Sidewalk Improvement Program.

Addendum No. 1:

RFP Section III - #8 & Section IV – Attachment C

This is a clarification that all sidewalks will conform to City Engineering Standards & PROWAG, e.g. width, depth, slope, etc... Attachment C was provided as additional information for potential ramps that may coincide with project work. No specific sidewalk specifications were included separately.

RFP Section V – Part B - #8

Bid Security (10%) IS NOT required as this is simply a proposal and not a bid. Performance and payment bonds will still be required upon selection and prior to finalizing an agreement.

Draft Agreement Section 25 (a) – Insurance

Commercial General Liability, Automotive Liability and Workers' Compensation are all the required insurance types for this project.

Please reach out to Darren Ramos, Project Manager, @ dramos@helenamt.gov or 406-304-1873 with any questions about this addendum. Acknowledgement of this addendum via signature below is required with all RFP submissions.

Regards,

Chris Couey

Deputy Director – Transportation Systems, City of Helena
